PROFILE

Proactive and enterprising **Senior Android Developer** transitioning into a Tech Leader role, known for delivering high-quality Kotlin mobile applications for top automotive brands. Equipped with excellent team building, communication, and problem-solving skills, along with a track record of independent, active, and result-oriented work. Love cats, dogs and music.

LOOKING FOR

Prefer a permanent contract, but evaluate freelancers projects. Can move to other countries. On-site and hybrid work methodologies are preferred, but I can do full remote if necessary.

LANGUAGES

Italian: native language   English: fluent   French: very basic

EXPERIENCE

Senior Android Dev + Tech Lead + Google Play Developer, Stellantis; Turin, Italy — March 2023 - Present

Played a pivotal role in the development and enhancement of the next Stellantis automotive mobile app. Developed code for **Maserati, Jeep, Dodge, Alfa Romeo, FIAT, Opel, Citroën, Peugeot, DS, Lancia.**

Responsible for the Remote Command's feature development and other security-based features.

Collaborated closely with a dynamic team to design, implement, and maintain features, applying SAFe 6.0 workflow patterns.

Demonstrated expertise in Android/Kotlin development best practices to ensure the app's reliability, performance and testability.

Proactively identified and resolved technical challenges, showcasing a result-oriented mindset and ensuring seamless integration with in-car systems to enhance the user experience.

First team to have successfully migrated from View to Jetpack Compose.

European responsible for Stellantis' Android Google Play Console, uploading, tracking, managing, and analysing the health of the company's apps.

Senior Android Dev + Google Play Developer, Stellantis; Turin, Italy — July 2022 - March 2023

Working for **Alfa Romeo, Dodge** and **Maserati**'s mobile apps, established coding standards and best practices, fostering an active culture of continuous improvement and innovation.

Projected and developed the main Bluetooth communication service, conducted code reviews and provided mentoring to junior developers to facilitate their growth within the team.

Android Developer / SaaS Dev / Web Dev; Etinet Savigliano, Italy — 2020 - June 2022

Design and development of applications in Kotlin + Jetpack Compose for Android with the use of biometric data, advanced security, modularisation, Android Architecture for clients such a **Banca del Piemonte, Repower, Banco Azzoaglio, Valtek, Desa**.

Reach web app: creation of management systems for clients like **Specchio dei Tempi, La Stampa, Campra Marmi, CoRipet**.

Design and development of mobile applications for the Android environment in Java and Kotlin for clients such as **TheWineSider, Essedue, Register, Pingueen** and others.

Design and development of SaaS and CMS in JavaScript, HTML5, CSS3.

Creation of services for database management with a target of millions of daily requests.

C++/C# Developer and Junior Data Analyst; Bottero Glass Technologies Cuneo, Italy — 2018

Design and development of multi-threaded client/server applications with critical data classification for Siemens PLCs.

Management and development of upgrades for the company's software, data structure improvements and algorithms optimisation.

Remote management of codebases for plants based on China, India, Brazil, Slovakia, Czech, Germany, France and Italy.

Freelancer Android / C# Developer Cuneo/Turin, Italy — 2013 - 2020

A lot of little projects for local customers, improving and studying the best mobile implementations.

Creating a whole suite of simple management systems for helping people with various tasks, I developed an app communicating with DJI flying drones for statistics and analytics.

..Meanwhile a lot of other jobs
Boves/Cuneo/Turin, Italy — 2013 - 2018
I worked as IT hardware specialist, network technician, web developer, customer assistant in different companies.

EDUCATION
Istituto Tecnico Industriale Statale "Mario Delpozzo"
IT graduation.

University of Studies, Turin — IT
All exams completed, stopped after this for health issues.

Driving License
Car owner.

HOBBIES AND INTEREST
I love improving my knowledges on job and IT related topics.
I would love to expand my PK on topic such IA (I've created something simple in Python), blockchains, cyber security, work ethic.

I've interests into Flutter, Dart, Swift (iOS) and React, too.

I love music (rock/metal/nordic folk), video games, role playing, strategic tabletop games.

I prefer theatre over cinema, mountain over sea, and not a TV guy.

I play the guitar, create apps for friends for fun and in love with cats and dogs.
